PROJECTION SOLUTIONS - MODULAR PROJECTOR

PROJECTOR CEILING SUPPORT

VPC 545

The VPC 545 projector ceiling support fits virtually every projector weighing up to 10 kg. It features a tilt, turn and roll movement.

The metal arms are adjustable and fit virtually all projectors equipped with a screw connection. Using the handy click in/out system, it is easy to attach or remove the projector, for instance for service purposes. Whether you need it for presentations or for watching movies, this universal projector mount is very useful. It's always ready to go, so you do not have to constantly set up a table or temporary support for your projector.

- Tilt, turn & roll
- Easy install
- Universal
